

ArchiveMASH

Fast, Affordable, Defensible Migrations & Collections

ArchiveMASH™ is Bluesource's second generation archive migration software. Built for speed, ArchiveMASH™ allows Bluesource to deliver migrations faster than ever before, supporting scores of platforms.

“Not only did we save 40%+ on the support renewal, we expanded our coverage with significantly faster response times and far better engagement than we ever received from Microsoft directly.”

Global Bank – Head of Platform Infrastructure

Defensible

Maintaining chain of custody is of utmost importance. ArchiveMASH™ tracks metadata and identifiers for all messages migrated, including any exceptions.

Bluesource can also provide expert testimony or affidavits in support of the migration practices and reporting, if required.

Proven Process

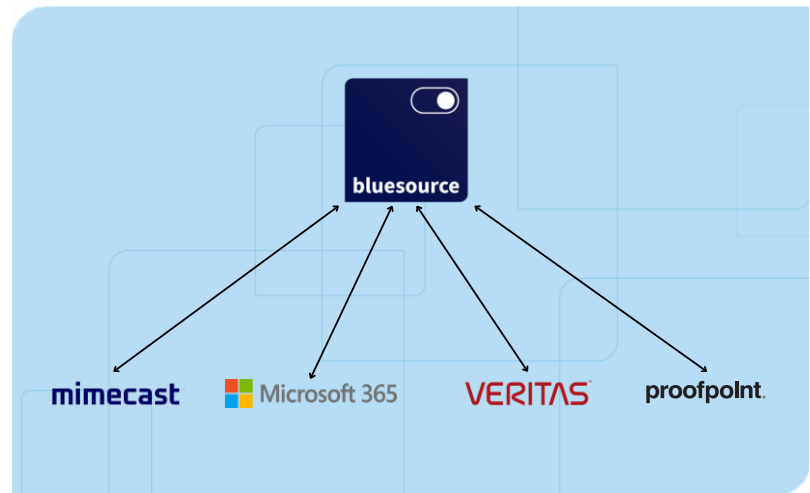

- Scoping: Your environment is accurately sized
- Pilot: Software is installed; Test Migration Performed
- Production: Data is moved continuously until complete
- Reconciliation: Chain of Custody Provided; Validation
