

# eDP247™

## Optimize eDiscovery Management

Increases in the volume of electronic data combined with expanding information governance requirements make efficient eDiscovery management a challenge. eDP247™ provides IT, legal, HR, compliance, and security teams with advanced eDiscovery powered by Arctera eDiscovery Platform (formerly Veritas).

### eDP247 Benefits

- Quick and accurate responses to audits, legal claims, and data preservation orders
- Effective claims evaluations, without sacrificing productivity
- Legally defensible eDiscovery process that withstands court scrutiny
- Lower legal service fees: send only what you need to outside counsel, reducing data processing costs
- Support available 24x7
- Leverage best practice technology

#### Full EDRM Workflow Support

- Collect information from hundreds of data sources
- Easily classify content and identify relevant items

#### Legal Hold Notifications

- Trackable, defensible process
- Authenticated response
- Self-service legal hold responsibilities
- Survey custodians

#### Analysis and Review

- Review native formats
- Full redaction capabilities to remove sensitive information
