

eDP Appliance Replacement

Solve Hardware Challenges

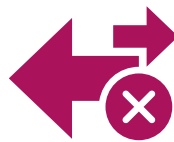

Avoid the challenges of aging eDiscovery Platform hardware.

Costly Maintenance

Facilities and repair expenses for outdated appliances add up quickly.

Incompatibility

Older systems struggle with modern software upgrades and security patches.

Performance Issues

Slow processing hinders efficiency in legal operations.

Risk of Failure

Physical damage or hardware failure can disrupt critical workflows.

Modernize Your eDiscovery Appliance

- **Enhanced Security:** Stay compliant with the latest security updates.
- **Improved Performance:** Faster processing for large datasets.
- **Scalability:** Adapt to growing data demands with ease.

Managed Services for Seamless Operations

Keep your legal operations running smoothly with Bluesource's fully managed services for the Arctera eDiscovery Platform. Our experts handle maintenance, updates, and support, allowing your team to focus on core responsibilities.

Modern Cloud or On-Prem Upgrade?

Option 1: Move eDiscovery to the Cloud

Transition your Arctera eDiscovery Platform to a secure, cloud-based environment with Bluesource's accredited consultants. Enjoy the flexibility of keeping your existing work product, licensing, and support while freeing up valuable datacenter space.

Cloud Advantages

- **Secure Storage:** Robust cloud infrastructure ensures data protection.
- **Faster Recovery:** Quick data restoration in case of disasters.
- **Remote Access:** Seamless collaboration for off-site teams.

Flexible Cloud Deployment Options:

Your Azure Tenant | Bluesource's Azure Tenant | A Preferred Cloud Provider (AWS, GCP, or OCI)

Option 2: Upgrade On-Premises Hardware

On-Premises Upgrade Benefits

- **Reliable Hardware:** Replace aging systems to reduce failure risks.
- **Security Compliance:** Ensure compatibility with the latest updates.
- **Optimized Performance:** Boost efficiency for demanding eDiscovery tasks.

For organizations preferring to maintain on-premises infrastructure, Bluesource helps with hardware upgrades, migrations, and redeployments to enhance the performance and security of your Arctera eDiscovery Platform.

Why Choose Bluesource?

Arctera-Accredited Expertise

Trusted consultants with deep platform knowledge.

Tailored Solutions

Cloud or on-premises options to suit your needs.

End-to-End Support

From migration to ongoing management.
